The following letter has been re-
ceived by Mrs. Fanniebell Suther-
land:

"May 17, 1918.
"Mrs. Fanniebell Sutherland,
"Paris, Ky.

"My Dear Mrs. Sutherland:—We
are going to have a Red Cross con-
vention in Lexington, June 19th and
20th. I am wondering if you would
be interested in having the Paris Lib-
erty Chorus take charge of the com-
munity singing the one evening on
which we have a program. I am so
interested in the community singing
and it seems to me it would give a
great deal of "pep" to the conven-

tion if we could add that feature to
our program.

"Think it over and let me hear
from you in regard to it.

"Cordially yours,
"LILA HAFORD.

for Kentucky."

Is This the Time to Fuss About Babies?

Why should we fuss about babies
now? That is a question which wo-
men may well be asking, for they are
busy with surgical dressings and
knitting things essential to the com-
fort of the soldiers. But the peace
of mind of the father who is soldier-
ing in France depends on knowing
that his helpless children at home
are safe. And war conditions affect
children in a hundred ways, although
American children have escaped the
more startling horrors which have
darkened the lives of the children of
war ravished France and Belgium.

The Children's Bureau of the U.
S. Department of Labor has asked the
men and women who are working to
win the war not to forget the war
time needs of all of America's chil-
dren whether their fathers are fight-
ing for their country in the trenches
in France or here behind the lines.
It asks that the protection given all
of America's children be increased
now when the foundations of the
country's future strength and de-
mocracy are being laid, for, "The
health of the child is the power of
the nation." This war time work
for children is called Children's
Year. Its goal is to save the lives
of 100,000 children under five years

of age during the second year of the
war. This means the saving of one-
third of the three hundred thousand
lives of children under five, which
are lost every year in the United
States. Authorities agree that at
least half of these deaths could be
prevented if knowledge of the best
modern methods of child care and
facilities for following out the di-
rections given by skilled specialists
were accessible to all children in-
stead of to comparatively few. If
America can prevent even part of
these deaths she will have demon-
strated her ability to get for her
children a better chance of life and
health.

England and France have realiz-
ed that work for better children is
vital war work, and England has
proved the value of what she has
done by bringing down her baby
death rate to the lowest point in
her history. Their achievements
are an inspiration to the eleven mil-
lion women of the Women's Com-
mittee of the Council of National De-
fense who have determined that 100,-
000 children's lives shall be saved in
Children's Year. The Woman's Com-
mittee now has 9,790 local units. A
constantly increasing number of
these units are undertaking to for-
ward work that will enable commu-
nities to give their children a better
chance.

Mrs. Harriet Minaker will act as
chairman for Bourbon county. A
time and place for the examination
of children under six years will be
announced later. Answer the call
when it comes. This may be your
bit.

TEACHERS TO HELP IN THE WAR WORK.

Teachers of Kentucky are to be en-
listed along with Four Minute men
under the Committee on Public In-
formation. Arrangements have been
made through the State Superintend-
ent, V. O. Gilbert, whereby all the
teachers attending professional
schools this summer will receive the
bulletin issued in June and those at-
tending county institutes will re-
ceive a bulletin to be issued in
August.

The project to interest mothers' or-
ganizations, school children and Sun-
day Schools in the care of orphans
of French soldiers is being promoted
by the Department of Education. A
home has been established for the
children and S. L. Blaisdell is for-
eign secretary for the French or-
ganization having the work in charge.
He has appointed Superintendent
Gilbert for this State.

Suicide Statistics.

A study of suicide among wage
earners in the United States by a life
insurance company has brought out
the fact that there are more suicides
among men than among women, and
fewer negroes seek death to end their
troubles than white persons. The sur-
vey shows also that there has been a
marked decrease in the death rate
from suicide in the last few years.

"Hello! Peoples Deposit Bank & Trust Company

of my account, including
today's deposits?"

"Your Statement will be Ready in Five Minutes"

This is real, up-to-the-minute
bank service—giving the customer
the thing he needs at the time he
needs it.

This is the kind of service we
are now prepared to give to you.

We have just installed a Bur-
roughs Bookkeeping Machine which
handles our accounting work and
keeps a statement of each customer's
account ready all the time, with en-
tries made right up to date.

Any time you want a statement
of your balance in a hurry, it is ready
for you.

Instead of leaving your pass
book for two or three days at the
last of the month in order to have it
balanced, you get a neatly printed

statement each month, showing all
checks and deposits and a balance
you KNOW is right. Every checking
account will receive these regular
monthly statements, together with
the cancelled vouchers.

The Burroughs will also post
our ledgers, giving us neatly-kept
and accurate accounts, and providing
an absolute and automatic proof of
the accuracy of every entry on our
statements and ledgers.

We are sure that the improve-
ment in our service made possible
by the machine book-keeping method
will meet with your approval, and
that you will appreciate the con-
venience and protection against error
afforded by the mechanically figured
statements.
